## EXPERIENCE

Flutter Developer · **Ebani Tech** Jun 2026 — Present · Hyderabad, India

- Develop enterprise Flutter applications for Android and iOS.
- Build scalable mobile architectures and responsive UI for kiosk and mobile devices.
- Integrate REST APIs and backend services.
- Work with AI/ML teams to integrate Computer Vision models and implement real-time camera processing.
- Optimize application performance and maintain production applications.
- Collaborate with backend and design teams.

Flutter Dart REST APIs Computer Vision Firebase Android iOS

Flutter Developer · **Ohara IT Solutions** Nov 2025 — May 2026 · Mumbai, India

- Developed new features using MVC, MVVM and GetX.
- Integrated REST APIs and secure local storage.
- Implemented dynamic multi-step forms.
- Optimized layouts for peak performance.
- Collaborated with QA and Project Managers.

Flutter GetX Riverpod Dart REST APIs

Junior Developer · **Quasar Digital Solutions** Jun 2024 — May 2025 · Bhopal, India

- Implemented Firebase Auth and Firestore.
- Designed accessible interfaces from Figma.
- Improved performance via refactoring.
- Executed end-to-end testing protocols.

React Firebase Tailwind CSS Figma

## PROJECTS

DigitopiaFlutter Developer @ Ebani Tech

Smart advertising screens for malls and hotels — controlled from one dashboard, anywhere in the country. Part of the Ebani Tech engineering team behind the Digitopia ecosystem, working as a Flutter Developer.

Flutter · Dart · Computer Vision · REST APIs · Firebase · [Open Digitopia](#)

EssonifyMobile App Developer

A fashion app that remembers your whole wardrobe and suggests what to wear each day. Mobile application development for the cross-platform app, in line with my Flutter, AI-integration and virtual try-on focus areas.

Flutter · Dart · AI API Integration · Camera Integration · REST APIs · [App Store](#)

SadeeqLead Flutter Developer

Book a cleaner, plumber or electrician — vetted, fixed price, and you watch them arrive on the map. Architected a scalable mobile solution using GetX and Clean Architecture.

Flutter · GetX · Google Maps API · REST APIs · Firebase · [Google Play](#)

RiayahFlutter Developer

A hospital app for patients and appointments — rebuilt so it stops freezing on busy days. Optimised the dashboard and heavy screens, reducing UI freezes.

Flutter · Provider · REST APIs · Firebase · FCM · [Google Play](#)

EbaniFlutter Developer @ Ebani Tech

The company behind those screens — hardware, software and support, all from one team. Flutter Developer on the Ebani Tech team that builds and operates the Ebani / Digitopia product family.

Next.js · React · Flutter · Dart · REST APIs · [Visit Ebani](#)

TajneedFlutter Developer

The official app people use to apply to the U.A.E. Ministry of Defence. Developed complex multi-step dynamic forms with validation and draft saving.

Flutter · GetX · REST APIs · JSON · Security Tokens · [App Store](#)

Sadeeq ProviderLead Flutter Developer

The companion app for the workers — their jobs for the day, their earnings, and chat with customers. Built a robust job-management dashboard with real-time status updates.

Flutter · GetX · REST APIs · Google Maps API · Firebase · [Google Play](#)

EDUCATION

Bachelor of Computer Applications (B.C.A.)

Manipal University Jaipur · Jaipur, India  
2025 — Present · In progress

Higher Secondary (Commerce)

Campion School Co-Ed · Bhopal, India  
2010 — 2023 · Completed
